

Colin Pawson FRPS

Died 13th February, aged 92

Colin joined the Society in 1974 and served as Chairman between 1980 and 1982. Together with his wife Audrey and son Nigel, the Pawsons were frequent visitors to the United States, particularly to the National Parks in the Western half of the country. Colin was a master of landscapes and he gained his Fellowship of the Royal Photographic Society with a set of prints made of the **Geological Features in the USA**. The images below give a flavour of Colin's work. They are scans taken from his prints, however, and as such do not reflect the full quality of his work.
